Mudrika

about Lovetobag

*L*ovetobag - accessories one would love to bag! It is chic, it is fast, it is regal and it is functional.

Lovetobag Handbags and Clutches emphasize contemporary styling with fine detailing and exceptional quality. Intricately handcrafted, the products have a flavour of India with an international appeal. Distinguished by its unconventional use of embroidery, prints, metal fittings and fabrics, each product is made in the richest of silks, satins and leather.

At Lovetobag we are inspired by many things, sometimes by Indian arts, crafts and architecture, sometimes by history and sometimes by everyday things. Our signature fusion styling and wide design options personify the woman who is whimsical, impulsive and free - has many dreams, many moods and many places to go to.

Conceptualized and designed by Ayushi, it is based in Kolkata and founded on the concept that no ensemble is complete without the right accessories... bag more, bag everyday!

Mudrika

*M*udrika comes from the hindi word 'mudra' which means a hand gesture with a special meaning.

This concept celebrates nature, emotion, imagination and craftsmanship. It fuses fantasy with nature by giving the products a very aged, heirloom and encrusted look. It uses the simplicity in nature's forms and ways as the backdrop.

The Mudrika collection is about creating awe inspiring and captivating designs that demand an instant emotional reaction.
