

Lovetobag

Nature Spun

about Lovetobag

*L*ovetobag - accessories one would love to bag! It is chic, it is fast, it is regal and it is functional.

Lovetobag Handbags and Clutches emphasize contemporary styling with fine detailing and exceptional quality. Intricately handcrafted, the products have a flavour of India with an international appeal. Distinguished by its unconventional use of embroidery, prints, metal fittings and fabrics, each product is made in the richest of silks, satins and leather.

At Lovetobag we are inspired by many things, sometimes by Indian arts, crafts and architecture, sometimes by history and sometimes by everyday things. Our signature fusion styling and wide design options personify the woman who is whimsical, impulsive and free - has many dreams, many moods and many places to go to.

Conceptualized and designed by Ayushi, it is based in Kolkata and founded on the concept that no ensemble is complete without the right accessories... bag more, bag everyday!

Nature Spun

This collection is inspired by the beautiful tales spun by nature in its many forms. Nature is used as a visual source to bring emotion, imagination and spontaneity into the often uncompromising lines of modern minimalism.

Everyday items are altered to create a sense of avant grade beauty. Natural patterns are enriched with embellishment and brought to life by 3 dimensional techniques. This collection combines illusions with reality, creating mystical spaces and shapes that can be uplifting and alluring. Products evolve beyond simple plant references to establish an elegant, ornamental design aesthetic.
